What We Are Learning

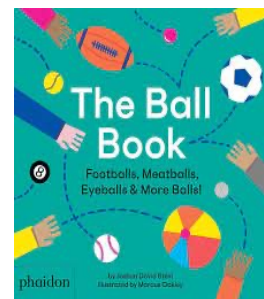

We will finish our exploration of balls and move into our two new focus questions of:

How do Balls Roll? and How do people use balls? This week we will focus on the dimensions of balls and what causes some balls to roll and others to not. We will do this with a series of experiments testing different types of balls on different types of surfaces around the classroom; carpet, tile and wood.

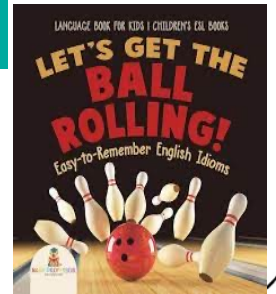

Picture Day is on Tuesday, November 28th

The Ball Book
By Joshua David Stein

Happy Thanksgiving!

Wishing you all a very Happy Thanksgiving. Thank you for everything you do for your children to make them successful and happy. You make our work so easy!

Activities of the Week

We will speak about the game of Bowling and make our own pins using paper towel rolls. We will use them to play a class game of bowling! We will also make our own ramp out of cardboard boxes and roll balls down it to make a cool painting!
